MARINUS LINK

WORKS NOTIFICATION
NOVEMBER 2026

South Gippsland construction works and site investigations

Construction on the Marinus Link project is underway. Over the coming months, we are building a temporary site compound and undertaking investigations along the cable route in South Gippsland, from Sandy Point to Mardan.

What it involves

- Land surveying
- Utilities scanning
- Ecology and environmental surveys
- Cultural heritage investigations and salvage
- Geotechnical investigations
- Waterway assessments

Mardan Site Compound works – find out more
marinuslink.com.au/works-notifications

What to expect

- Work crews and an increase in light and heavy vehicles.
- Temporary traffic changes and traffic management, including reduced speed limits and road safety signage when crews are working on the roadside

To help keep everyone safe, please observe traffic signage and follow instructions from traffic controllers.

Works will be completed between the following working hours:

- **Monday to Friday, 7am to 6pm**
- **Saturday, 7am to 1pm**

During November 2026, some ecology surveys will take place in the evening up until 10 pm. These surveys are conducted on foot with no heavy machinery.

Background

Marinus Link is a new electricity and telecommunications interconnector between North West Tasmania and Victoria's Latrobe Valley.

The project includes high-voltage and fibre-optic cables spanning 255 km across Bass Strait and 90 km underground in Gippsland, along with a fibre-optic terminal station at Sandy Point and converter stations at Heybridge and Hazelwood.

Marinus Link is jointly owned by the Commonwealth, Tasmania and Victoria and is being delivered with lead contractors TasVic Greenlink (TVGL), Prysmian and Hitachi Energy, supported by local businesses and suppliers.
